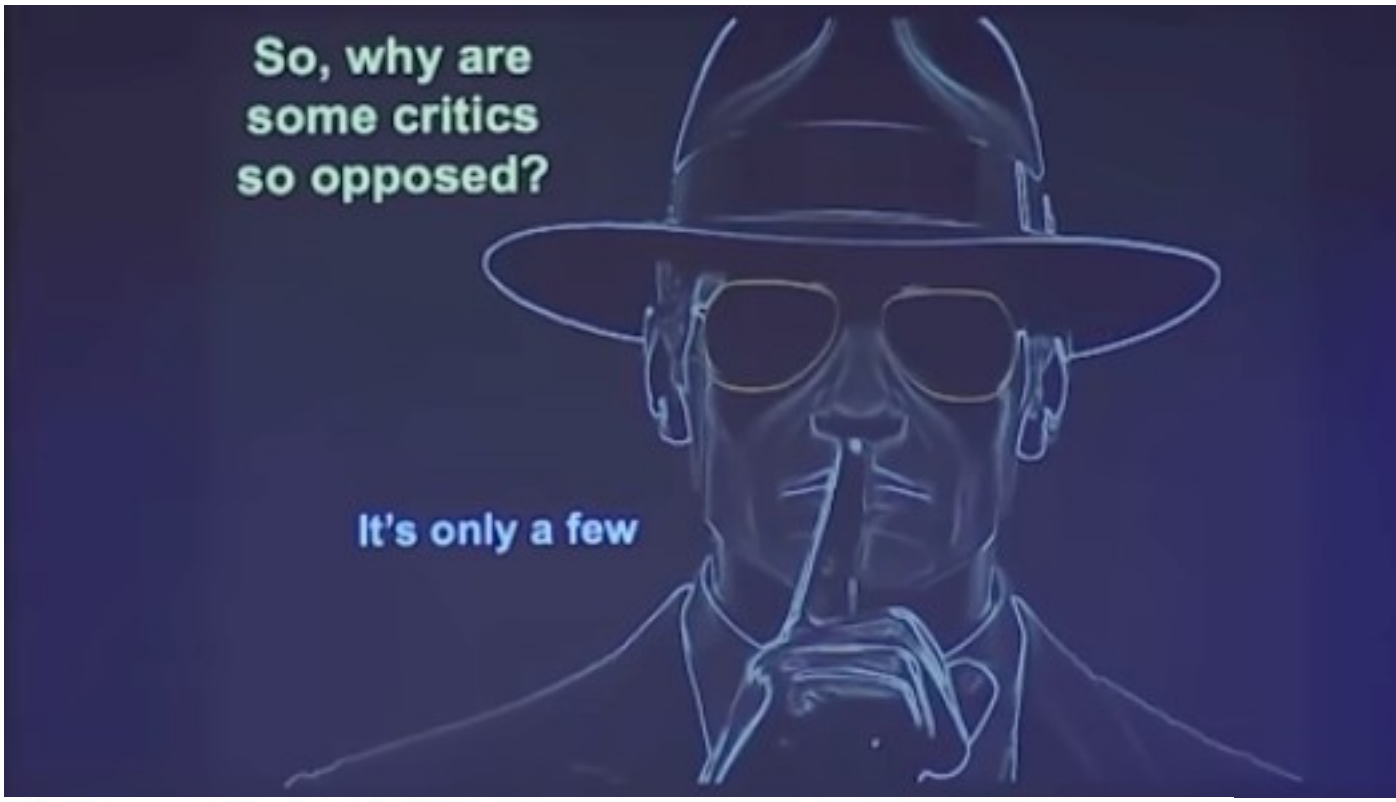
GRAHAM HANCOCK AND ASTEROIDS

https://www.youtube.com/watch?v=ja0qElhbhiw

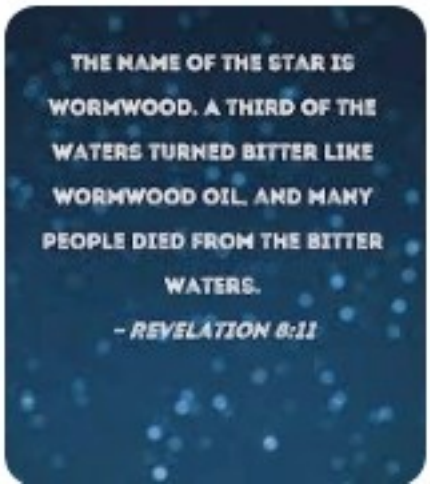
I have been trying to warn people to head for higher ground and prepare for what is to come if we look at prophecy, geology, science, archeology and ancient Bible Stories that all tell us the same thing which is the earth goes through cataclysmic events that wipe out around 1/3 of the populations when they do.

These past events did not happen because the Clovis people used nuclear weapons in the past. These events were primarily earth shaking events that seem to be caused by comet and asteroid strikes.

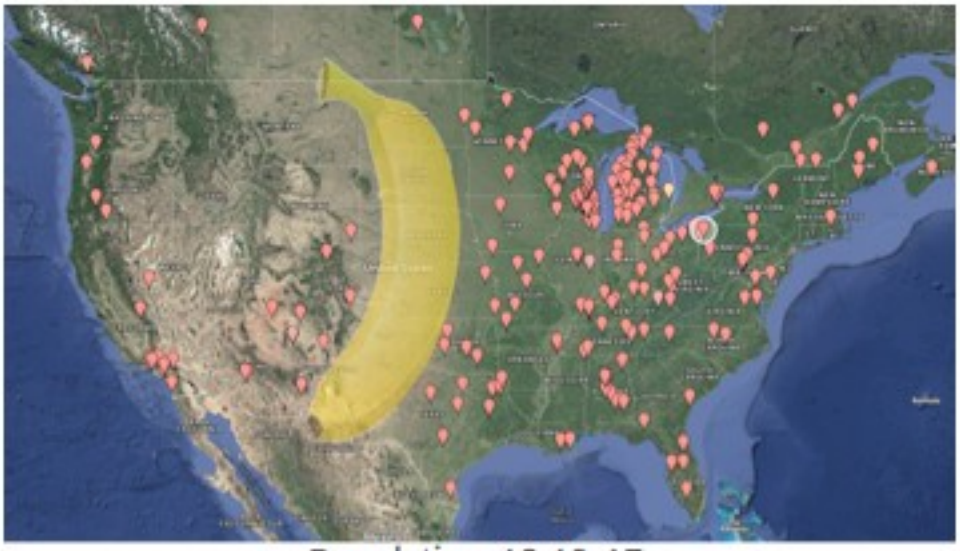
God of Chaos asteroid more dangerous than NASA admits! Apophis update!



So, why are some critics so opposed?
It's only a few



THE NAME OF THE STAR IS WORMWOOD. A THIRD OF THE WATERS TURNED BITTER LIKE WORMWOOD OIL, AND MANY PEOPLE DIED FROM THE BITTER WATERS.
– REVELATION 8:11



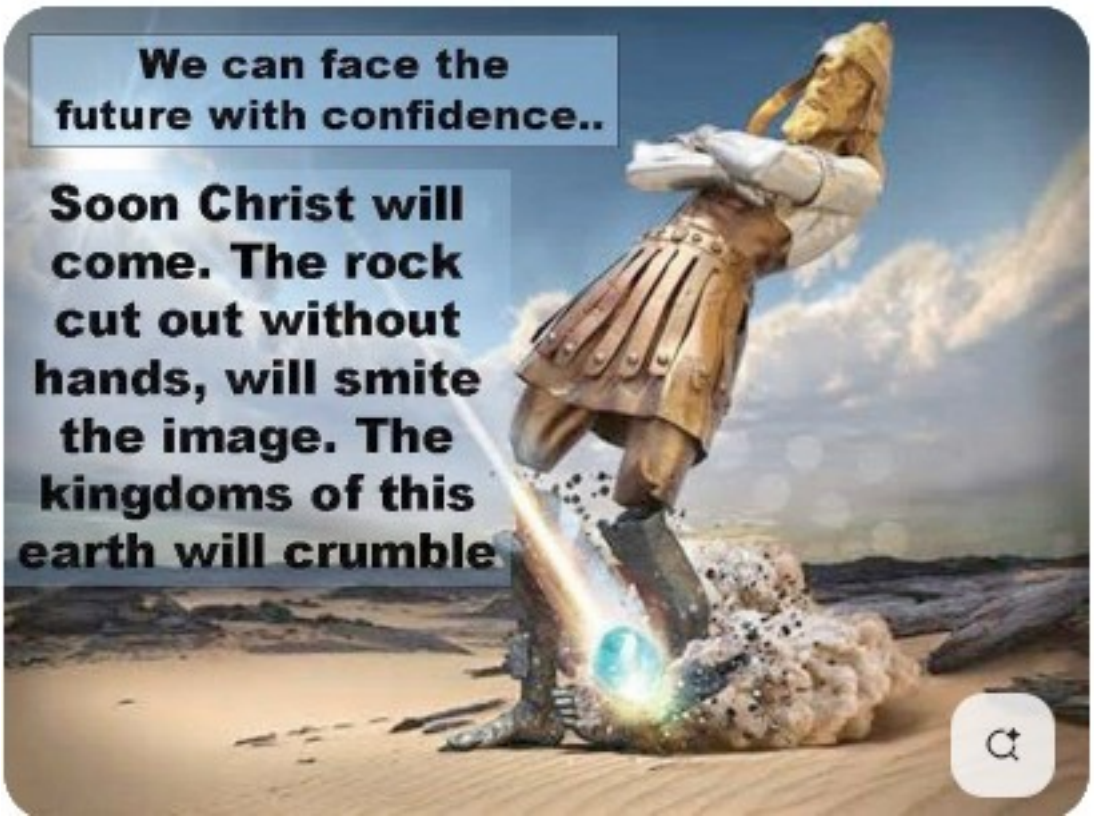
Revelation 12:13-17

Some people like myself have seized on this imagery to teach people that the America, whose national symbol is the eagle, will supply an End Time airlift that will fly the followers of Jesus out of harms way into what is referred to as the inland Corn and Banana Safe Zone Regions.

TOM HORN A CHRITIAN SEER AND PROGNOSTICTOR FIRST STATED APOPHIS WILL HIT BETWEEN THE NORTH SEA AND THE BLACK SEA WHERE THE ASHKENAZI ZIONISTS, SEPHARDIC JEWS AND MEROVINGIAN ANCESTORS MIGRATED TO FROM KHAZARIA RUSSIA

"Apophis will hit Earth on April 13, 2029, or April 2036 if it does not deviate, " Horn told the Daily Express. *"* asteroid Apophis, *with certainty, will impact the Earth between the North Sea and the Black Sea on April 13, 2029, less within 10 years or on April 13, 2036. I have a lot of information that we have corroborated to date with more than 250 specific examples of what I would like to call prophetically accurate scientific information from the source. "*

Horn also claimed that former NASA aerospace engineer **Matthew Wieczkiwwicz and mathematician Harry Lear are key members of his** research **team.**



We can face the future with confidence..
Soon Christ will come. The rock cut out without hands, will smite the image. The kingdoms of this earth will crumble

Today good people are warning us about Apophis, the asteroid that may hit the earth in April 13, 2029. Once this information came out NASA and the DEEP STATE DEBUNKERS hit the internet with "It's not going to happen messages" but we are wise to their bevy of lies they continually put out there so we ignore them.

I am not a prophet, psychic, astrologist, scientist nor do I drink, do drugs or or engage in anything that is woo! woo! of any kind but I am a researcher who follows many bread crumb trails because I think there is clear evidence that we are living in what is commonly referred to as the End Times. A time that ancient cultures have all warned us about.

That is generally a period describing the End of the Ages ideologies that refer to the time period we are living in today at the end of the church age, the end of the Pisces Age, the end of the Mayan Calendar etc. Many other groups talk about time periods that the earth and people are going

through that in the end bring us a new start, a new age etc, Jesus tells us he will be bring in a new earth which may simply be a revision of the earth which happens after a global cataclysmic event. A time the earth has gone through a great cleansing and renewal period where the earth moves, shakes and reorganizes itself and life begins again.

Graham Hancock is warning us that we are about to enter another cataclysmic earth shaking event, an extinction event possibly like the one that caused the dinosaurs to go extinct.
